Relevant History:

17/12/2021 FULL/2021/2455 Permission to erect single storey flat roof extension with balcony at first floor level, install dormer windows and rooflight to east (rear) elevation and install rooflight to west (front) elevation.

GP9: Sustainable development

GP13: Householder development

Conclusion/Brief comment:

The proposed dormer windows would be dominant on the roofslope, and would not respect the hierarchy of fenestration generally found on such buildings. The elevations is not however visible from a public place and there would therefore be no adverse impacts outside of the site. All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
