OFFICER'S REPORT

Brief Description of the site:

The application site is located to the east of and at a slightly lower level than Jerbourg Road. The site comprises substantial grounds containing significant mature planting, although some clearance has been undertaken recently. The dwellinghouse formerly located on the site has been demolished as part of an extant permission for demolition and rebuild.

The site lies Outside of the Centres at the top of the east coast cliffs (which are designated as a Site of Special Significance) with panoramic views towards neighbouring islands.

The site forms part of the Batterie Strassburg protected building listing. At this site the listing covers a machine gun post, together with two flak emplacements in the adjacent field.

Conclusion/Brief comment:

This application seeks the demolition of a gate pillar and section of wall to the north of the existing site access, to increase the width of the gateway during the course of construction of the new dwelling. Following completion of the dwelling, the wall and pillar are to be reconstructed as existing.

The proposed works are required to facilitate the approved development at the site and, provided the features are reconstructed in a timely manner, would not have a significant impact on the character of the area. The features are set away from the protected structures at the site and would not impact upon those structures.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
