ADVICE AND OTHER REMARKS:-

For the avoidance of doubt, this decision permits the erection of a domestic outbuilding to be used as an integral part of and incidental to the principal dwelling presently known as Claremont. It does not permit the creation of a separately occupied annex or an independent dwelling. This would require a separate grant of planning permission and involve different planning policy considerations.

Effect of planning permission:

Section 18 of the Land Planning and Development (Guernsey) Law, 2005 ('the Law') defines the effect of the planning permission hereby granted, namely:

(1) Planning permission ceases to have effect unless the development permitted by it is commenced within a period of three years immediately following the date on which it is granted (or such shorter period as may be specified in the permission).

(2) Planning permission enures for the benefit of the land concerned and of every person for the time being having an interest in it.

(3) Any conditions subject to which planning permission is issued are enforceable in accordance with the provisions of Part V of the Law.

(4) Planning permission for the erection of a building is only permission to use it for the purpose specified in the permission or, subject to any restriction so specified, for any other purpose for which it is designed.

(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

Right of appeal against planning decisions:

Your attention is drawn to the provisions of Section 68(1) of the Land Planning and Development (Guernsey) Law 2005, which provides a right of appeal, on the merits against a decision to grant planning permission subject to conditions (except a building condition), to the Planning Tribunal, which is independent of the States of Guernsey. An appeal to the Planning Tribunal under section 68 of the Law against this decision must be made before the expiry of the period of six months beginning with the date on which the Authority made this decision. The official Appeal Notice Forms are available on the States of Guernsey website at www.gov.gg/planningpanel and must be completed with all enclosures in multiples as requested and received within the six months deadline.

Copy of representations made:

In reaching this decision the Authority took into account any written consultations made under Section 11(1) of the Land Planning and Development (General Provisions) Ordinance, 2007 ('the Ordinance'). A copy of any consultation responses made under section 11 will be included with this decision in accordance with section 19 of the Ordinance.

Conclusion/Brief comment:

This application is to demolish the existing outbuilding and erect a single storey outbuilding to be used as an ancillary and incidental dower unit adjacent to the west boundary, at the rear of the main dwelling.

Initially the application was deferred because the size of the outbuilding/dower unit was considered to be too large. The size has since been reduced from over 50sqm to 43.2sqm, which although still quite large is an improvement. The outbuilding will be positioned close to the main dwelling with a close interrelationship, which means it is less likely to be separated from the main dwelling at a later date (for which planning permission would be required).

The outbuilding provides a lounge/diner/kitchenette, a bathroom, a bedroom and a lobby/study. The unit will share the garden and driveway with the main dwelling and the utility bills will be paid by the main dwelling.

The outbuilding is considered to be well-related to the main dwelling, there will be no adverse effects on the amenities of the neighbouring properties and it has been demonstrated that the unit will remain ancillary to the main dwelling.

The proposals achieve a good standard of design, using materials which complement the existing materials. The unit will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new outbuilding/dower unit is not considered to have a detrimental effect on the character and amenity of the surrounding area and it is considered to be subservient to the main dwelling.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
