Conclusion/Brief comment:

This application is to demolish the existing extension and erect a larger/longer extension in its place to the rear/east elevation of the property. The block plan also shows a garden room/home office at the bottom of the garden, but this structure is exempt from planning and so will not be assessed in this report.

All the dwellings along De Beauvoir Terrace are originally very small cottages, two rooms downstairs and one room upstairs. Over the years many of the dwelling in the terrace have been extended, with rear dormers to create two rooms upstairs and long single storey extension to the rear, utilising some of the very long exterior garden space that all of the cottages have.

The neighbours on either side of 2 de Beauvoir Terrace are no exception and the proposed single storey extension subject of this application will reflect the extensions of its neighbours.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

The northwest neighbour did have a window looking into the applicants garden, which would be blocked by the proposed extension, however, an agreement has been reached to insert a rooflight instead, which is exempt from planning. Therefore, the issues of blocking a neighbours light had been mitigated.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
