Conclusion/Brief comment:

This application is to demolish a section of roadside wall to widen the vehicular access. The removal of the low brick wall between the application site and the neighbouring property to the south-east constitutes exempt development.

Roadside boundary walls usually help to enclose a street scene and generally their entire removal is not supported. However, over time the front gardens of all 10 dwellings to the southeast have had their front boundary walls removed. Therefore, in this case, it would not be appropriate to resist the proposals.

The street scene has already been eroded by the front boundary wall removal of each of the other properties and the further removal of this front boundary wall will not cause sufficient additional harm to the appearance of the surroundings and the character and amenity of the locality to outweigh the support and flexibility for alterations to existing residential properties as set out in Policy GP13. As a result, the proposal does not conflict with Policies GP8 and GP13.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
