Conclusion/Brief comment:

This application is to erect a cover over the courtyard, west of the swimming pool enclosure, south of the main dwelling.

The swimming pool enclosure and the wall which surrounds the swimming pool enclosure and associated courtyard relate to a late 20th century part of the building where there would be no adverse effect on overall special interest of the main protected building. Therefore it is considered that policy GP5 has been complied with.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The cover will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation within the swimming pool area.

The scale and massing of the new courtyard cover is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impacts on any of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
