Conclusion/Brief comment:

This application is to remove the existing iron railings and install 760mm block and rendered planters on top of the front retaining wall and then plant a 3ft hedge in the planters.

The property reads as a detached house with attached steps rising up to the west and a pedestrian walkway to the east dividing the property from the next building, which also has a fairly high front boundary wall.

Raising the wall by another 760mm is not considered to have any detrimental impacts on the special character and appearance of the surrounding conservation area, nor will it have any impacts on any neighbour amenity.

Planting a hedge as indicated does not ordinarily require planning permission however, a native hedge will also encourage more biodiversity into the area, which already has a good amount of foliage to the west of the property.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
