Conclusion/Brief comment:

This application is to partially demolish the conservatory and erect a single storey extension in its place to house a bedroom. The application is also to erect a raised terrace and add three rooflights to give natural light to the middle room and bathroom.

The property presently consists of three rooms, from the street the front door opens into a kitchen, then through into the bedroom with a toilet in the corner and then an opening into the conservatory. The proposals are looking to keep the kitchen at the front, frame in a proper bathroom in the area where the toilet is, and turn the bedroom into a lounge and to turn the conservatory into a separate bedroom.

The new bedroom omits the existing north facing window, which improves the possibility for overlooking into the neighbours garden. The raised terrace would generally not be supported when the rear amenity space is so tight and close to the neighbours, however, in this instance the view to the north would be of the neighbours shed, and south would be of the rear of the neighbours conservatory and the oil tank. In each direction the possibility for overlooking is limited but not without concern, a condition shall be added to include 1.8m privacy screen to the north and south boundaries, the views from the terrace would then be limited to the west over the open fields.

The proposals achieve a good standard of design for such a small space, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupier more flexible and adaptable accommodation.

The scale and massing of the new extension and associated works are not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will they have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
