OFFICER'S REPORT

Conclusion/Brief comment:

The proposed pool house is set back from the road, built over the existing swimming pool. The existing mature landscaping and hedging encloses the site and assists in screening the development. The design includes a lower ridge height than the main dwelling which ensures it remains subservient, and reduces the prominence of the building in the open landscape. The building is located close to the main dwelling which prevents the sprawl of built form into the open countryside.

The materials proposed are acceptable. There is not considered to be any impact on neighbours due to the distances involved.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
