OFFICER'S REPORT

Brief Description of the site:

The property known as 'Le Cas Rouge' is a collection of granite faced pre-1900 two and two and a half storey buildings, with a single storey timber double garage and other outbuildings. The property is located on a corner site with Le Cas Rouge running along the east boundary (with vehicular access from the north) and Rue de la Corbiere running along the southern boundary. There are open agricultural fields to the west and another large protected building to the north. The property is located Outside of the Centres as defined in the Island Development Plan. The property is also a Protected Building.

Conclusion/Brief comment:

This application is to erect a single storey extension to the north elevation of the existing timber framed double garage to house a workshop, add a single storey extension to the nearby outbuilding to house a shower room and to excavate and erect a retaining wall to the east of the outbuilding to create a parking area. All the works are located north of the main protected building near the vehicular access. The garage and outbuilding are not protected buildings.

The extension of the workshop will be timber frame and will complement the existing garage in scale, mass and design. The extension to the outbuilding will also match the existing outbuilding using the same materials and roof tiles.

Due to the location of the extensions they will not be seen from the main house or from the road, therefore they are not considered to have any impacts on the special interest of the Protected Buildings which lie to the south, nor will they have any impacts on the neighbouring properties private amenity.

The area to be excavated is a grassed area with a couple of shrubs on it. The proposals are to remove all of the raised area and erect a concreted retaining wall fronted with timber sleepers, to allow the area to be used for parking. The same loose stone finish will be used.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
