Conclusion/Brief comment:

This application is to alter the roadside boundary to create two gated vehicle accesses.

Historically the property has always had two 6m entrances along the north boundary, with a semi circular planting bed in the middle. The planter was removed circa 2018/9 and the property has not had a north boundary since then.

The proposals reduce the size of the planting bed to a 600mm high granite rubble wall with a flower bed on the south side. The two entrances will have inward opening timber gates installed to give the northern boundary a sense of enclosure.

The proposals are considered to be of good design, enclosing the front boundary will enhance the character of the area and will not have any impacts on neighbour amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
