OFFICER'S REPORT

Brief Description of the site:

The site owned and run by Blanchelande College is located to the north of Le Bouillon Road and west of Route de St Andre. The property is located Outside of the Centres and within the Agriculture Priority Area as defined in the Island Development Plan.

IP9: Highway Safety, Accessibility and Capacity.

Conclusion/Brief comment:

This application is to create an additional gated vehicular and pedestrian access half way along the east boundary. It will be approximately 55m south of the existing entrance.

Route de St Andre is approximately 165m from north to south, with the existing access turning into the *exit* from the site and the new opening will become the *entrance* only, which means the requirement for appropriate visibility splays is not as important. However, the road is very straight and there will be at least 45m to the crossroads northward and 115m to the junction southward, which means the sight lines in each direction are considered appropriate for an entrance opening. Therefore in this instance IP9 is complied with.

Policy OC2 states that proposals for the extension, alteration and redevelopment of existing social and community facilities will be supported where the proposal would not undermine the vitality of the Centres, where it would be of a scale appropriate to its setting, where there are no unacceptable impacts on the visual appearance and amenity of the location concerned and where they accord with all the other relevant policies of the Island Development Plan.

The proposals will not undermine the vitality of the centres and is considered to be of an appropriate scale and is not considered to have any detrimental impacts on the character and visual appearance of the area, nor would the proposals have any impacts on any of the neighbouring properties.

The design of the entrance is in keeping with the original entrance to the north, with a granite wall bell mouth, 1.5m high granite pillars 6m apart and a 1.4m high wrought iron sliding gate. The proposals are considered to be a good standard of design.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
