OFFICER'S REPORT

Brief Description of the site:

The application site comprises a detached traditional stone dwelling located to the north of Les Prevosts Road. The building is situated in a Conservation Area as designated in the Island Development Plan.

Planning permission is sought to erect a single storey outbuilding/vine house to the rear of the property (south-west boundary).

The application was deferred as the proposed structure extended onto agricultural land. In response, the agent has repositioned the structure within the recognised domestic curtilage. It is proposed to remove the existing conservatory attached to the main house and re-use the conservatory to form elements of the new vine house.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The proposed vine house is sited immediately adjacent to the north-west boundary of the domestic curtilage. It is proposed to install doors on the north elevation of the vine house which will open onto agricultural land. Whilst this relationship is unusual, it is similar to the existing domestic greenhouse which has an access directly onto the agricultural land.

Overall, the proposal adopts a good standard of design by virtue of its scale, form, massing, siting and materials. Due to its position and design, the proposal will not have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
