**Conclusion/Brief comment:**

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The existing windows detract from the special interest of the protected building and so, subject to agreement by condition of large-scale drawings (1:20 elevations; 1:5 sections) the proposed replacements are acceptable under Policy GP5 & CN11. It is not clear from the application whether trickle vents would be visible, but these should be concealed.

The application is acceptable in relation to the above policies and other material planning considerations, subject to conditions.
