OFFICER'S REPORT

Brief Description:

The application relates to the removal of the existing hedge along the western boundary due to honeyfungus infection, and its replant using Bay Laurel or Evergreen Oak, at La Croute, Route de la Palloterie.

The site is located Outside the Main Centre, within the Conservation Area and Agriculture Priority Area as designated in the Island Development Plan. The property is a pre-1900 building.

Relevant History:

FULL/2023/1898 – Demolish and rebuild boundary wall, widen/alter and install gates to vehicular accesses to west boundary (retrospective) Approved

Existing Use(s):

01 Dwelling

Representations:

One comment has been received which notes the use of non-native species and that replacement of the hedging with a native species would not have required planning permission under the exemptions.

GP13: Householder development

Conclusion/Brief comment:

The proposed removal of the diseased hedge along the western boundary of the site and replacement with either Bay or Evergreen Oak, is considered acceptable. The spacing of 3 plants per linear metre is considered sufficient to allow a meaningful hedge to establish.

The use of non-native species is regrettable, however, the relevant IDP policies do not allow the Planning Service to insist on their use.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
