Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The rear rooflights would be located 5-6m from the property boundary, facing towards an adjacent residential property. Whilst this distance is closer to the boundary than would ordinarily be acceptable, taking into account the size and layout of the adjacent property, and approval of rooflights on the adjacent property to the south, it is not however considered that any harm arising would be sufficient to warrant refusal of the application.

The application is acceptable in relation to the above policies and other material planning considerations.
