Conclusion/Brief comment:

This application is to demolish a 1.68m section of roadside boundary wall to widen the existing vehicular entrance from 3.22m to 4.9m wide.

A 3.2m wide vehicle entrance is considered to be quite restrictive, and because the majority of the roadside boundary wall will remain intact, the widening of the

existing entrance is considered to be appropriate and acceptable. In addition, the wider entrance will mean safer access and egress for any vehicles visiting the site.

The proposals are not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will they have any impacts on either of the immediate neighbours.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
