Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The proposal is of a small scale and coupled with its design, position and finish, it will have a negligible effect on the character and appearance of the Conservation Area and visual amenity.

Due to its height and position towards the centre of the roundabout, the proposal is not considered to cause any significant highway safety issues.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
