OFFICER'S REPORT

Brief Description of the site:

The site is located to the east of Vazon and occupies a triangular plot to the north of Route de Tertre which is bound by agricultural land to the north and north-east and a neighbouring residential dwelling immediately adjacent to the eastern boundary. The land rises gently to the north of the site, meaning the dwelling is elevated approx. 0.5m above the road level.

Conclusion/Brief comment:

The proposed development adds two dormers to the rear (west) elevation of the previously approved outbuilding. The outbuilding was approved with four rooflights to the rear, and the two central rooflights are retained and two are replaced with dormers. The proposed rear rooflights will allow views over the application site and road only and so no harm to neighbouring amenity is anticipated.

The bulk and mass of the garage will increase as a result, but this is not considered harmful in scale or its setting.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
