OFFICER'S REPORT

Brief Description of the site:

The application site comprises a detached 1.5 storey dwelling located to the east of Rue Des Mourants. The property is located Outside of the Centres and in an Agriculture Priority Area as defined in the Island Development Plan. The property is currently served by two accesses and planning permission was recently granted to change the use of agricultural land to domestic garden (FULL/2020/0750).

Planning permission was also recently granted to extend and alter the ground and first floor level to the east (rear) elevation, erect a single storey extension to the west (front) elevation, and erect a detached single storey garage to the north boundary (FULL/2021/0417). The proposal also included removing a hedge, widening the vehicular access and installing a gate.

Permission is now sought to install two single storey extensions to the side and rear of the house. The extension to the side (north) will serve as a utility and WC, with the extension to the rear (east) serving as a kitchen/dinner. A raised terrace is also proposed between both extensions and wraps around to the rear garden.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The extension to the rear of the property has been reduced in size when compared to the previous scheme (FULL/2021/0417). Whilst the extension serving the utility is different to that approved and will be more prominent in views from the main road due to its position, the scheme overall will have a negligible effect on visual amenity and on the surrounding built environment.

Consequently, the proposed ground floor extensions represent modest sized additions to the property, are subservient in scale, appropriately sited and achieve an acceptable standard of design in this context (Policy GP8 – Design).

All other alterations, including the terrace, are acceptable under the provisions of Policy GP8 and GP13.

Neighbour amenity will not be affected.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
