OFFICER'S REPORT

Site Description:

The application site, known as 'Les Adams' comprises a cluster of buildings, located on the corner between Route Des Adams and Route Du Felconte. The whole of the dwelling-house including the boundary walls, entrances, mounting block and pump, the flagstone yard, together with the exterior and interior of all the outbuildings including the cider making machinery in the Prinseur are protected.

Relevant History:

FULL/2020/1503	Demolish and rebuild chimneys, re-roof and install rooflight to north roofslope. Erect extension at 1st floor level to north (rear) and flat roof extension to west (side) and internal alterations (protected building).	Granted
----------------	---	---------

Existing Use(s):

Residential

Brief Description of Development:

Planning permission was granted in 2021 (FULL/2020/1503) to, amongst other works, erect an extension at 1st floor level to the north (rear) elevation. The extension approved was shown to be finished in render.

Planning permission was sought to vary the permission and install composite cladding to the rear first floor extension.

Concerns were raised over the appropriateness of this material on a traditional and protected building. The agent has subsequently omitted the composite cladding and replaced with natural Larch timber cladding finished in natural Osmo Oil, in attempt to overcome the concerns raised.

Relevant Policies of any Plan, Subject Plan or Local Planning Brief:

GP5 Protected Buildings
GP8 Design
GP9 Sustainable Development
GP13 Householder Development

Representations:

The Authority has received a letter of representation from one party objecting to the proposal. Grounds for objection principally relate to the following issues:-

- The use of synthetic timber effect cladding in this highly sensitive area.

Consultations:

None.

Summary of Issues:

- Whether the design of the proposed development is acceptable.
- The impact of the development on the character and appearance of the area.

Assessment against:

- 1 - Purposes of the law.**
- 2 - Relevant policies of any Plan, Subject Plan or Local Planning Brief.**
- 3 - General material considerations set out in the General Provisions Ordinance.**
- 4 - Additional considerations (for protected trees, monuments, buildings and/or SSS's).**

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is a requirement under the Land Planning and Development (Guernsey) Law, 2005, when considering applications affecting protected buildings, to secure so far as possible that the special historic, architectural, traditional or other special characteristics (including setting) are preserved. This duty is reflected in Policy GP5 of the IDP.

The use of natural timber cladding at first floor level is considered appropriate for a building of this age and will weather overtime. Consequently, the proposal will respect the special interest of the protected building.

Whilst visible in public views, the proposal will not cause harm to the character of the area or visual amenity.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies; it is therefore recommended that planning permission be granted, subject to conditions.
