OFFICER'S REPORT

Brief Description of the site:

The application site comprises a detached dwelling-house located to the south of Verte Rue. The property is located Outside of the Centres as designated in the Island Development Plan.

Planning permission was granted in 2023 to demolish the building and erect a replacement dwelling-house.

Permission is now sought to erect a shed/outbuilding to the rear of the property, adjacent to the south boundary. The outbuilding is referred to as a shed/hobby room on the drawings submitted.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The proposal adopts a good standard of design by virtue of its scale, form, massing, siting and materials. Due to its position and design, the proposal will not have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents. An informative should be attached to the decision to ensure that the outbuilding is used for incidental to the dwelling-house and not for any trade or business as this would require a separate grant of planning permission.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
