Conclusion/Brief comment:

This application is to remove the existing above ground swimming pool and replace it with a 6m x 3.5m shed on a concrete base with a 2m x 2m paved area outside of the double doors.

Part of the paving is within the 30m radius of the property, but the majority is not. However, due to the position of the shed and the secluded nature of the end of the garden, the proposed shed and paving are not thought to have any detrimental impacts on the character and appearance of the surrounding area, nor will they have any adverse effects on the private amenity spaces of the neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
