GP13: Householder development

Conclusion/Brief comment:

A schedule of works undertaken, as well as an explanation of why the works were necessary, is provided in Torode letter dated 14/12/23.

Policy GP5 requires any harm to the special interest of the protected building to be weighed against the benefits and the reasonable aspirations of the property owner. The harm to the special interest of the property is considered to be outweighed by the reasonable aspiration of the property owner to maintain and repair the building.

The proposed works to the exterior of the building do not harm the character and appearance of the Conservation Area. The application therefore also complies with GP4.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
