- Smooth rendering enhances the character of the area.

Consultations:

None.

Summary of Issues:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The proposed development adopts a good standard of design by virtue of its scale, form, massing, siting and materials. Due to its position and design, the proposal will not have a detrimental impact on the character of the area, visual amenity, or the amenities of neighbouring residents.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Whilst it is important to ensure that any drawings submitted are accurate and correct, any grant of planning permission would be without prejudice to the normal legal rights and privileges of third parties with regards to ownership disputes.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
