OFFICER'S REPORT

Brief Description of the site:

The application site previously comprised a detached single storey dwelling with a large outbuilding to the east and a greenhouse to the west. The dwelling has recently been demolished following the grant of planning permission for a replacement dwelling at the site (see planning history section of this report).

Surrounding the site, the area comprises residential dwellings of mixed building type and design to the north and east with open agricultural land to the south. The site has a pedestrian access from the property onto Rue De La Rocque to the north and a vehicular access to the east.

The site is situated Outside of the Centres as designated in the Island Development Plan.

Conclusion/Brief comment:

Planning permission is sought to erect a shed situated to the south boundary of the property. The shed will measure 5.4m in width, by 2.4m in depth with a lean to roof 2.1m at its highest point from ground level.

The shed is a standard shed and achieves a satisfactory standard of design and is appropriately positioned to the rear of the main residential property (once built).

Given the limited scale the shed and that it will be screened from the open fields to the south by an existing boundary hedge, the proposal would not have any significant adverse effects on the character and visual amenity of the surrounding area. The proposal accords with policies GP1 and GP8 of the Island Development Plan.

Due to the distance to neighbouring residential properties the proposal would have no adverse effects on the amenities of neighbouring residents.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
