OFFICER'S REPORT

Brief Description of the site:

The property known as 'Marlin' is a 1970's bungalow which is slightly set back from and faces south onto Pine Grove, it sits to the west side of a relatively small plot. There are neighbouring properties to the east, north and west and across the road to the south. The property is located Outside of the Centres as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to demolish existing outbuildings to the side of the dwelling and to erect a single storey flat roof double garage in the northeast corner of the site with permeable paving in front creating a parking area.

Although the garage takes up a reasonable amount of outdoor space within the site there is still enough private outdoor amenity space to the rear of the property and does not significantly alter from the existing arrangement on site given the existing outbuildings to be removed. The site offers adequate external amenity space and the proposal would not warrant a refusal.

The proposals are considered to achieve a good standard of design and will give the homeowners plenty of parking space and domestic storage. The scale and massing of the new outbuilding is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impact on either of the immediate neighbours.

From the drawing it looks like part of the garage will be built over the covered culvert, a to be highlighted with Guernsey Water as separate permissions from Guernsey Water may be necessary.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
