OFFICER'S REPORT

Brief Description of the site:

Planning permission is requested for variations to condition 4 of works previously approved to raise the roof ridge height of the east wing of the building (FULL/2023/0816). The variations involve altering the external finish of the east gable wall from stone to a smooth rendered external insulated render system.

The site consists of a traditional two storey building comprising of 2 dwellings and associated outbuildings. There are outbuildings to the rear and a large area of agricultural land to the west and south is also under the same ownership. The whole of the site is Outside of the Centres. The northern part of the site adjacent to the highway including the dwellings and associated outbuildings is within a Conservation Area.

Relevant History:

28/06/2023 – FULL/2023/0816 – Permission granted to demolish chimney and raise roof ridge height at second floor level to east elevation.

27/12/2001 – PAPP/2001/4262 – Permission granted for the change of use of guest house and self-catering unit to two dwellings.

Existing Use(s):

Residential use class 1: dwelling house

GP9: Sustainable development
GP13: Householder development

Conclusion/Brief comment:

Finishing the east gable wall in a smooth rendered external insulation system will partially erode the character of the building due to the loss of the existing textured traditional painted stone wall. However, the overall standard of design of the extended building will be of a sufficient quality to conserve the character and appearance of the Conservation Area, in accordance with Policies GP4 and GP8.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
