Conclusion/Brief comment:

This application is to remove an old boundary hedge and erect a 1.8m high fence along the east end of the north boundary, the entire east boundary and along the whole of the south boundary.

The application was deferred because the west section of the south boundary is forward of the front elevation that faces a highway where it is expected that the boundary fence is reduced in height to prevent the feeling of barricading. The applicant has agreed to lower the fence to 1.2m and a condition shall be added to ensure the fence is reduced to 1.2m.

The existing boundary hedge is very sparse and, in the areas where it still exists, it is either dead or dying. Its removal would not impact the biodiversity in the area. To install a 1.8m fence around the rear of the property does not require planning permission. However, planning approval is required to install a fence at the front of the property which is higher than 0.9m, in this case 1.2m.

The 1.2m high fence will delineate the boundary without giving the feeling of barricading and is considered to be an appropriate height.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
