OFFICER'S REPORT

Brief Description of the site:

The application site consists of a detached dwelling-house which is located north of Rue de la Foire. The property is located Outside of the Centres as designated in the Island Development Plan.

Planning permission is sought to remove a conifer hedge and install a replacement 6ft high fence topped with a 1.5ft trellis to the rear of the site, along the north-east boundary. It is understood that the application has been considered by the neighbouring property to the north of the application site. The applicant's covering letter indicates that the existing hedge is approximately 3.3m high. A large wall bounds the site along the north-west boundary.

It is also noted that internal works within the garden are also proposed although these are deemed to be exempt.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The existing Leylandii hedge is in reasonable condition in terms of the foliage although it is near the end of its life cycle by virtue of its width, and has regularly been topped over the years.

Given that the replacement fence will be smaller than the existing hedge, the proposal is not considered to cause undue harm to the amenities of neighbouring residents, particularly to the north of the site.

Due to its position, the proposal will not affect the character of the area or visual amenity.

Given that hedges can be used by nesting birds during the bird breeding season, it is reasonable to advise that the hedge is removed outside of the bird breeding season. An informative to this effect shall be attached to the decision to draw the applicant's attention to the Animal Welfare (Guernsey) Ordinance 2012, as well as the direction of the 2020 Strategy for Nature.

Sufficient information has been submitted that has taken into account the criteria of Policy GP9 (Sustainable Development).

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
