All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The structure is of simple and practical design and would be discretely located behind the roadside development, and away from the site boundaries. The proposal would not therefore have any adverse impacts on the character of the wider Conservation Area, or on neighbour amenity.

The proposal is designed to incorporate renewable technology and construction materials would be upcycled.
