Conclusion/Brief comment:

This application is for the temporary removal of a section of the front boundary wall to allow vehicular access during the building works at the property for a maximum period of 24 months. Following the completion of the building works the wall and pillar are to be reconstructed as existing.

The proposed works are proposed to facilitate the previously approved development at the site and, provided the features are reconstructed in a timely manner, would not have a significant impact on the character of the area nor on residential amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
