OFFICER'S REPORT

Brief Description of the site:

The application site is located Outside of the Centres as designated in the Island Development Plan.

Planning permission is sought to remove a hedge and erect a fence to the east boundary.

The application was deferred as concerns were raised over the height of the fence (1.8m) to the front of the house. The applicant has submitted revised plans which shows a replacement fence which is staggered in height, ranging from 1.8m nearest the house, reducing down to 1.5m, and 1.2m high adjacent to the road (Les Osmonds Lane).

The applicant has also requested to replace an existing conifer hedge along the east boundary, to the rear of the property, and to replace it with a 1.8m high fence.

Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

In light of the amendments secured, the proposal adopts a good standard of design by virtue of the height and position of the fencing and will not have an unacceptable effect on the character or appearance of the surrounding area.

Whilst some concerns are raised over the height of the fence panels nearest the road with regards to highway safety, particularly when viewed from the neighbouring property to the east known as Bel Air, these concerns are not considered to be so substantial to rebut the general support in favour of householder development (Policy GP13). This decision has been reached when taking into account the low traffic speeds and volumes along Les Osmonds Lane. In addition, the existing hedge, located immediately adjacent to the entrance point of Bel Air, is at a height that it would be more impactful at reducing sightlines towards traffic travelling in a west-to-east direction than the proposed fence.

The fencing to the rear of the property raises no issue under Policy.

The proposal will not affect the amenities of neighbouring residents.

Based on the above, the application is considered compliant with the relevant Island Development Plan policies, and accords with the purpose of the Law and the Material Planning Considerations. It is therefore recommended that planning permission be granted, subject to conditions.
