OFFICER'S REPORT

Brief Description of the site:

The property known as 'Le Petit Dolphin' is a small two storey property which is located on the east side of Sausmarez Street. The property is angled onto the street facing southwest. The property also has a pair of single garages, which are set back from the roadside. There are neighbouring properties to the north and south and across the road to the west. The property is located in the St Peter Port Main Centre and Conservation Area as defined in the Island Development Plan. The property is a Protected Building.

Conclusion/Brief comment:

This application is to erect a single storey extension to the west (front) elevation of the garages, which are located within the setting of a Protected Building, but are not themselves protected. The extension will lengthen the garages, making them more effective for modern vehicles.

The extension will add just under 900mm to the front of the garages. Initially the proposed front elevation had omitted the transom windows from the design and had shown modern garage doors. The application was deferred to request the transom windows were reinstated and that the garage doors were replaced with a more traditional style.

Since then the windows have been reinstated, and a note has been added to the drawing regarding the garage doors, but no decision has been made, a condition shall be added to ensure an appropriate style of garage door is added.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The scale and massing of the new extension is not considered to have a detrimental effect on the character and amenity of the surrounding Conservation Area, nor will it have any impact on the setting of the nearby Protected Buildings or either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
