Conclusion/Brief comment:

Planning permission was previously granted for a similar proposal at this site in 2020 which has since expired (FULL/2020/1831). The only difference between the previously approved application and the proposal the subject of this application is the addition of a glazed balustrade surrounding the lowered patio along the west and south elevations.

Situated to the rear of the premises and unseen from public vantage points surrounding the site, the proposal would not negatively impact on the character or appearance of the Conservation Area.

The proposal is sufficient distance from neighbouring properties so as not to cause harm to residential amenity.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application. The application is acceptable in relation to the above policies and other material planning considerations.
