Conclusion/Brief comment:

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

The windows and doors all date from the later part of the 20th century and are sympathetic to the style of the building. They make a neutral contribution to overall special interest.

The application is acceptable in relation to the above policies and other material planning considerations. It is necessary and reasonable to attach a condition to request large scale drawings (1:20 elevations; 1:5 sections) of all new and replacement windows and doors.
