## **OFFICER'S REPORT**

### **Brief Description of the site:**

Vouziers, Les Blanches is a detached two-storey property with smooth rendered exterior and pitched tiled roof. A substantial area of hardstanding is located to the north of the property and the house benefits from a large garden to the south. The dwelling has an existing glazed gable at second floor level to the front/north elevation and ridge rooflights installed. An existing balcony is situated to the rear/south of the dwelling, enclosed by a glazed balustrade.

The application relates to the demolition of an existing extension and the construction of a single-storey, flat roof extension (incorporating roof lanterns) to the rear of the property along with the construction of a porch to the front. The two pairs of French doors at first floor level are to be replaced with larger, sliding doors with associated works to the roof above as the replacement doors will break through the existing first floor eaves. New fenestration is also proposed at second floor level in order to provide and to fenestration at second floor level in connection with attic level storage.

Replacement of windows and doors in existing openings represent exempt works as does the ground floor alterations to fenestration to the rear of the property, external cladding, replacement balcony balustrade, replacement roof coverings and solar panels as shown on the application drawings.

Although the extension is noted on the application drawings as being exempt the extension to enlarge an existing extension does not meet the 2023 Exemption criteria.

The site is located Outside of the Centres as designated in the Island Development Plan.
