Conclusion/Brief comment:

This is a retrospective application to erect a single storey outbuilding and covered walkway to the west boundary of the site. The outbuilding will house a small WC, a games room, a music room and a bar/entertainment area, the covered walkway and separate sauna area.

Despite being constructed without planning approval the proposals are considered to achieve a good standard of design, using materials which complement the existing materials of the main dwelling. The outbuilding will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The scale and massing of the new outbuilding is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any impacts on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
