Conclusion/Brief comment:

This application is to rebuild a retaining wall to the south roadside boundary.

There is roughly a 7m section of the existing rubble retaining wall which has collapsed into the field taking a small amount of the road with it.

The applicant has had a structural engineer look at the issue and he has suggested a more robust blockwork retaining wall and clad with a dry stone wall, replaces the existing rubble wall, this will help strengthen both the wall and the road, one it has been reinstated.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
