(4) Planning permission for the erection of a building is only permission to use it for the purpose specified in the permission or, subject to any restriction so specified, for any other purpose for which it is designed.

(5) Planning permission is only permission to carry out the development specified in it (subject to any conditions so specified), and does not imply the giving of any other approval or consent required under this Law or any other enactment or under any rule of law.

Right of appeal against planning decisions:

Your attention is drawn to the provisions of Section 68(1) of the Land Planning and Development (Guernsey) Law 2005, which provides a right of appeal, on the merits against a decision to grant planning permission subject to conditions (except a building condition), to the Planning Tribunal, which is independent of the States of Guernsey. OFFICER'S REPORT

Brief Description of the site:

Neuf Courtil and Rose Cottage are two properties within the same site and ownership. Neuf Courtil is located at the rear of the site and Rose Cottage is closer to the road, they both face south onto Rue Marquand. The access driveway is in the west end of the south boundary and goes past Rose Cottage up to Neuf Courtil, between the two properties close to the east boundary is a garage/store, which faces west. There are neighbouring properties to the east at a lower level and across the road to the south, and open agricultural fields to the west and north. The property is located Outside of the Centres and within the Agriculture Priority Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to convert the south end of the existing garage/store into guest accommodation with a bedsit and separate shower room. The proposals are to insert a window on the south gable elevation and a small obscure glazed window on the east elevation.

The garage/store is a single storey pitched roof structure, the new south facing window will look at the gable end of the domestic glasshouse, which is to the east of Rose Cottage, it is not considered to cause any overlooking issues. The rear shower room window is to have obscure glazing, plus due to the adjacent flat roof outbuilding to the east of the boundary there is no opportunity for overlooking.

The proposals achieve a good standard of design, using materials which complement the existing materials. The new windows will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

The proposals are not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will they have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
