Conclusion/Brief comment:

This application is to remove the dying hedge which denoted the front boundary between the two semi-detached dwellings. The proposals would be to replace the hedge with a 1.2m high timber fence.

The two dwellings share a 1.5m high granite south boundary wall, which has two vehicular openings for each property. The hedge is only viewed from these openings. The 1.5m high hedge is definitely dying and its removal is considered to be appropriate.

A 1.2m high fence between the two buildings is considered to be acceptable because there is a higher south boundary wall which will help to soften the impact of the fence. However, the fence is low enough that there will not be a feeling of barricading and there is the opportunity to plant flowers etc either side of the fence.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
