Representation:

One neighbour letter was received, which raises concern over the potential for overlooking when the boundary line of trees are coppiced, which occurs regularly. The neighbours also raise concern over their own future plans to extend at the potential for this development to inhibit this.

Conclusion/Brief comment:

The proposed creation of a first floor above the existing flat roof extension is acceptable given then location of the development and distance away from any residential neighbours meaning that there are no concerns regarding overlooking. The use of matching stone to the front elevation ensures the proposal blends with the existing dwelling and ensures there are no significant impacts in terms of visual amenity.

Neighbour concerns have been considered, but given the separation distance of over 30m, no harmful or direct overlooking is anticipated. Future intentions of the neighbour to extend are not a material planning consideration, and given the separation distance, the current proposal unlikely to significantly prejudice any plans.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.

The application is acceptable in relation to the above policies and other material planning considerations.
