Conclusion/Brief comment:

This application is to render the upper gable and chimney of the western gable.

Mountville and the adjoining westerly neighbour, 34 Mount Row, are not Protected Buildings, although many other properties on this stretch of road are Protected.

The second storey of Mountville was probably added in the 1950's or 60's, and the gables either side have not been rendered. It is the west gable and associated chimney stack that are subject of this application, to prevent damp in both properties.

The rendering of this gable and chimney are not considered to have any detrimental impacts on the special quality of the character and appearance of the conservation area, nor on the setting of any of the surrounding protected buildings and it will not impact on neighbour amenity.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
