Conclusion/Brief comment:

This application is to erect a single storey extension with a balcony above, excavate and erect external steps and erect a shed to the east rear elevation.

The front door on the west elevation serves the lower ground floor (labelled basement on the application drawings), and at the rear it leads to steps up to the garden and the upper ground floor (labelled ground floor on the application drawings).

The lower ground floor gym has a roof lantern at present, but this will be removed in order to erect a single storey floor garden room above at garden level, off the Master Bedroom, with a first floor balcony above with glazed balustrade, off the lounge. External stairs with a glass balustrade are proposed to serve the new balcony along with new steps up to the garden.

The new balcony is only slightly larger than the existing balcony, which means the extent of overlooking will not intensify.

The scale and massing of the new extension and other works are not considered to have a detrimental effect on the character and amenity of the surrounding conservation area, nor will they have any impact on either of the immediate neighbours. The neighbour to the south is a Protected Building, but the proposals are not considered to have any impacts on the setting of the protected building.

The shed to be located in the rear garden fits all of the criteria to be exempt works, no assessment is necessary in this case.

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials. The extension will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
