Conclusion/Brief comment:

This application is to erect a large shed on the garden to the northwest of the block of flats.

Initially the shed was to be located in the middle of the garden on the lawn almost in line with the block of flats, but this would have meant the shed was easily visible from the road (the garden is slightly elevated from the road ground level), and the amount of usable lawned area would have been seriously compromised.

The application was deferred to allow the shed to be repositioned, towards the rear of the garden in the north corner adjacent to the rear parking area. The shed is now

located further back into the site, which means it will be far less visible from the road, plus the amount of useable garden is retained.

The new location of the shed is not considered to have any detrimental impacts on the character and appearance of the surrounding conservation area, nor will it have any adverse effects on neighbour amenity.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
