OFFICER'S REPORT

Brief Description of the site:

The property known as '14 Warry's' is a 2010's construction two storey attached dwelling which is part of a clos. The property faces south onto the Warry's access road, the attached dwellings are to the east and west and beyond the garden to the north is another clos, Clos de la Fosse. The property is located in the St Peter Port Main Centre Outer Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to insert two rooflights into the rear north facing roof slope, at a pretty low level.

The main reason why this application is necessary is due to the clos at the rear of the property. However, from the clos it will be difficult to see the rooflights, plus they are too low on the roof slope to cause any overlooking, either into the clos or into neighbours gardens.

Inserting the rooflights will allow a loft conversion, which is supported by the IDP in policy GP13.

The proposals will provide adequate levels of sunshine and daylight, and give the occupiers more flexible and adaptable accommodation. The proposals are not

considered to have a detrimental effect on the character and amenity of the surrounding area, nor will they have any impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
