OFFICER'S REPORT

Brief Description of the site:

Planning permission is requested to refurbish, alter and replace roof lantern.

The market buildings are a prominent complex of historic buildings within the centre of Town that were subject to redevelopment in the mid-2000s. The buildings now accommodate a variety of retail uses on the ground floor with predominantly offices above.

The whole of the building complex is protected under a single listing and the site falls within a Conservation Area, Main Centre Inner Area and Core Retail Area under the Island Development Plan.

Conclusion/Brief comment:

The statement of significance shows that the raised rooflight section has been changed over time, with the raised central louvres added at some point in the last 100 or so years. The quality of the detailing of the raised central louvres does not reflect the remainder of the rooflight and the removal of these lower quality elements and their replacement with an aluminium system will better waterproof

and thus protect the important internal timbers. The proposal achieves a high standard of design and would have no adverse effects on the special interest of the protected building and would conserve the character and appearance of the Conservation Area, in accordance with Policies GP4 and GP5.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.

It is recommended that the application is approved.
