OFFICER’S REPORT

Brief Description of the site:

Le Platon Residential Home is located in the middle of St Peter Port, with Constitution Steps to the east, Sausmarez Street to the north, the land falls away steeply down to Burnt Lane/Mill Street to the south and housing and George Street to the west. The property is located within a Main Centre and Conservation Area as defined in the Island Development Plan. The main part of the building is a Protected Building.

Conclusion/Brief comment:

This application is to resurface the hardstanding in the southern car park belonging to the Residential Home with permeable block paving showing the way to the new housing to the south, and permeable tarmac across the rest of the area.

The permeable tarmac is actually 10mm porous asphalt, as noted in the product information sheet submitted as part of the application. Using a permeable finish to the car park would be the best sustainable design and finish, and is considered acceptable.

At present the surface is loose stone, which although permeable, is not visually appealing and certainly not the best finish for some of the elderly residents to walk on. For these reasons the proposed finishes will improve the use and visual amenity of the car park.

The proposals are not considered to have any detrimental impacts on the character and appearance of the surrounding Conservation Area, or the setting of the Protected Building, nor will they impact on neighbour amenity.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
