OFFICER'S REPORT

Brief Description:

The application site comprises the Inter Island Quay, located on the north side of the harbour basin. The site is located within the Main Centre Inner Area, Conservation Area and Harbour Action Area as designated in the Island Development Plan.

There are a number of existing containers located along the north-east side of the quay. This application proposes to relocate an existing container slightly to the north and to install an additional container within the run of containers, to provide a crew room for dry changing and storage associated with the Marine Ambulance. The container would be 7m x 2.4m x 2.6m(high), constructed in steel with a single ply roof. The south-west and north-east sides of the containers would be finished with a mural.

The fixing of a defibrillator to the outside of the container would comprise exempt development, not requiring planning permission.

In addition it is proposed to install a 2.4m long x 0.65m high information sign to the east side of the railings on the south-west side of the quay.

Conclusion/Brief comment:

The proposed works comprise minor port related development, which would not prejudice the outcome of implementation of any future Local Planning Brief for the area.

The Inter Island Quay forms part of the working harbour, and the character of the locality reflects that. The relocation of the existing and insertion of a new container within the row of existing containers would not significantly alter the character and visual amenity of the area. The application of murals to each side of the container as proposed would not comprise commercial advertisement and, arguably, would add interest without significant detriment to the area.

There are two existing signs on the quay railings, for the lifeboat and inshore rescue, and the addition of an additional sign as proposed for a similar community service would not have any adverse impacts.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land and Planning (General Provisions) Ordinance 2007 have been taken into account in the assessment of this application.
