OFFICER'S REPORT

Brief Description of the site:

The property known as 'The Wedge' is a 1970's bungalow which was remodelled in the 2000's to become a one and half storey dwelling. To the north are open fields, to the east are neighbouring properties and the vehicular access to the property, to the south is a green space surrounded by residential housing and to the west is a commercial building. The trees on the property to the south are protected. The property is located in the St Peter Port Main Centre Outer Area as defined in the Island Development Plan.

Conclusion/Brief comment:

This application is to remove the timber shed and shipping container located close to the vehicular entrance of the site and erect a single storey pitched roof two bay detached garage.

The new garage will be slightly set back from the driveway and will fit into the area bounded by the retaining wall (the southern part of the site is at a higher level and laid to lawn).

The proposals are considered to achieve a good standard of design, using materials which complement the existing materials of the main dwelling.

The scale and massing of the new garage is not considered to have a detrimental effect on the character and amenity of the surrounding area, nor will it have any significant impact on either of the immediate neighbours.

Confirmation has been received that the development proposed has been designed to take into account matters of energy efficiency and current Building Regulations in accordance with Policy GP9.

The proposals are considered to conform to the above policies of the Island Development Plan and grant of permission is recommended, subject to conditions.

All material considerations as set out in the Land Planning and Development (Guernsey) Law, 2005 and the Land Planning and Development (General Provisions) Ordinance, 2007 have been taken into account in the assessment of this application.
